

About the movie "The Legend of Wu Xun" and "The Spirit of Wu Xun"

I hope to pay attention to the discussion and criticism and will summarize the report

(issued by the Department of Culture and Education of the Guangdong People's Government on July 2, 1951, 51 Gao Zi No. 980)

Discussion and criticism of the film "The Legend of Wu Xun" and "The Spirit of Wu Xun" must be taken seriously by cultural and educational institutions at all levels, and serious research and discussion should be conducted to clear up the chaotic thoughts in the literary and academic circles. Our office issued a notice on June 9th with Jiao Nei Zi No. 6; the General Educational Committee of the Political Department of Guangzhou District also issued a notice on June 18th, in order to make the cultural and educational administrative departments at all levels in this province pay more attention to this issue. Discussion, I will print and distribute the full text of the instructions of the Central Ministry of Education on this discussion and criticism for your reference. I hope that cultural and educational institutions and schools at all levels will follow the arrangement to study, conduct extensive and in-depth discussions, and summarize the studies no later than Report to the office in the first ten days of July.

Instructions of the Ministry of Education of the Central People's Government on Discussion and Criticism of the Film "The Legend of Wu Xun" and "The Spirit of Wu Xun"

1. The ideological debate caused by the movie "The Legend of Wu Xun" has gradually developed into a national ideological movement. This movement should draw the serious attention of educators across the country. Wu Xun, a specific historical figure, is very familiar in my country's educational circles. The so-called "martial arts spirit" has a deep and widespread influence among educators. This influence blurred the standpoint and viewpoint of the revolution, and became a serious ideological obstacle to the advancement of people's education. Therefore, the "Biography of Wu Xun" and the treatises on Wu Xun have been thoroughly discussed in educational administrative agencies and schools at all levels, and scientific and systematic discussions and criticisms have been carried out on the character of Wu Xun and the so-called "Spirit of Wu Xun". Work is very necessary.

2. Educational administrative leadership at all levels should attach great importance to the leadership of this ideological movement. This movement must spread to every school and every educator. Educational administrative departments above the special agency level and schools above the secondary level should cooperate with the education unions to carry out this discussion, specify the reference documents for reading, and combine the movie "The Legend of Wu Xun" or the historical materials of Wu Xun for scientific research and analysis. Criticism, and the focus should be on reviewing one's own thoughts, based on one's past and present views on Wu Xun and the film "The Legend of Wu Xun", using Marxism-Leninism and Mao Zedong Thought as weapons, conducting self-criticism, launching free debate, and advocating a small number of people do systematic and in-depth research, such as criticizing works about martial arts and drawing scientific conclusions. For education administrative cadres and elementary school teachers below the county level, in addition to arranging their own discussions, they can also take advantage of the holiday training opportunity to study as a specialized problem.

3. In the course of discussion, we must have correct ideological leadership, stimulate everyone's thinking in light of the problems raised, go deeper step by step, and finally draw correct conclusions from the phenomenon to the essence, so as to achieve a clear line between revolutionary standpoints, viewpoints, and reactionary thinking, eliminate the influence of the so-called "spirit of

Wu Xun," clarify the ideological confusion in education, and raise the political and ideological level of all education workers.

4. The study time is generally set at half a month. Educational administrative agencies above the special agency and schools above the middle school must summarize and report the results of this study movement level by level before mid-July.
