

Instructions of the CPC Central Committee on the public security system to carry out the "three antis" struggle and party organizations of party, government and military units at or above the prefecture level to convene party congresses

Date: 1951-12-9

all departments of the Central Committee and the Central Military Commission, and all party groups of the Central People's Government; all central bureaus, and please immediately transfer them to the sub-bureaus, provincial and municipal party committees; major military regions were transferred to the party committees of military regions at all levels; Volunteer Party Committee:

(1) The Central Committee approved Comrade Luo Ruiqing's report of December 8, 1951 on carrying out the anti-corruption, anti-waste, and anti-bureaucratic struggle in the Central Public Security Ministry and the entire public security system, and considered this report to be correct. (2) Party committees at all levels are requested to strictly guide public security organs at all levels to carry out this struggle with great fanfare, vigor and openness. (3) Print and distribute this report to the county and league levels, and publish it in the party's internal publications. (4) The Central Committee has decided that all party organizations of the Party Central Committee, the Central Military Commission, and the Central People's Government shall hold a Party congress at least once a year to review the Party's work, carry forward its achievements, correct mistakes, support righteousness, defeat evil, and elect Party committees. In the current period, in terms of correcting mistakes and combating evil, we should focus on carrying out the struggle against corruption, waste, and bureaucracy. It has been almost three years since we occupied the city, and most departments have not yet held the first party congress, which should be held in a short period of time. Then the three major units of the party, government and military will hold party congresses separately, which are also stipulated to be held at least once a year under the leadership of the general party committee directly under the Central Committee (the party congress directly under the Party Central Committee has been held in May this year), and the tasks are the same as before. Party organizations directly under the major banks at the district level, provincial and municipal levels, and special district levels should also handle the same, and all central bureaus, branches, and provincial and municipal party committees are requested to supervise and promote the implementation.

Central December 9, 1951
